MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. INDUSTRY STRUCTURE & DEVELOPMENT

The financial year 2016-17 witnessed a gradual recovery of the global economy, although the pace has tended to be uneven and prone to uncertainties. At the same time, there has been a distinct change in the pattern of the recovery. While earlier it was fuelled by the emerging markets and developing economies, the impetus to growth has come from the developed economies this year.

The Indian economy progressed at a breakneck speed till a few years ago, the pace of growth has been considerably slackened in recent years. In fact, the country witnessed sub-5 percent growth during the last two years owing to declining infrastructure and corporate investments, weak consumer sentiments, persistent inflation and policy uncertainty. The situation was further complicated by the withdrawal of the US Quantitative Easing programme that led to significant rupee depreciation and widening of the country's current account deficit. In fact, the economy has experienced a consistent decline in GDP growth rate over the last two years, leading to an alarming volatility in the inflow of foreign investments.

BUSINESS OVERVIEW

Spangle Marketing Limited is an Investment Company and it carry on the business of Financial Investment Services like to invest in, acquire, underwrite, subscribe to purchase and holds and otherwise deal in all type of securities including shares, stocks, debentures, debenture stock, warrants, bonds issued or guaranteed by any Company or Companies constituted or carrying on business in India. This is the third Management Discussion and Analysis Report produced in this fiscal 2017.

B. OPPORTUNITIES & THREATS

India's GDP (Gross Domestic Product) for FY 2016-17 is to grow in the range of 7.1% as compared to slower than recorded in the previous year. The GDP growth rate in the next fiscal which could accelerate to 8% in a couple of year.

While business sentiment and policy reforms has pick up after the new Government formed in 2014, the investment cycle may take time for any significant revival. That is why the demand for corporate credit may remain subdued in Last two years. However, growth in credit to retail segment and small and medium enterprises is anticipated to rise.

Macroeconomic stress is likely to keep asset quality of both public and private sector banks under pressure. Net interest margins have improved with rates at the shorter end coming off on the back of improving liquidity. With interest rates on three-five year term deposits likely to remain firm due to high inflation, banks with lower wholesale funding may find it difficult to maintain margins unless they increase lending rates.

The growth of financial sector in India slowed 6.1% in the fourth quarter ending March, 2017 as compared with 7.1% in the previous quarter of the financial year 2016-17 due to demonetization hits consumption. The rise in the growth rate suggests the growth of the economy. The financial policies and the monetary policy are able to sustain a stable growth rate.

The reforms' pertaining to the monetary policies and the macroeconomic policies over the last few years has influenced the Indian economy to the core. The major step towards opening ups of the financial markets further it was the nullification of the regulation restricting the growth of the financial sector in India. To maintain such a growth for a long term the inflation has to core down further.

The financial sector in India had an overall growth of 15% which has exhibited stability over the last few years although several other markets across the Asian region were going through turmoil. The development of the system pertaining to the financial sector was the key to the growth of the same. With the opening of the financial market variety of product and services was traduced to suit need of the customer. The Reserve Bank of India played dynamic role in the growth of the financial sector in India.

The growth of the financial sector in India was due to the development in sectors.

- Banking Sector in India
- Capital Market in India

C. RISK AND CONCERNS

High inflation is a key macroeconomic challenge for India. Over the past several years it has induced double-digit inflation expectations, and given rise to a high demand for gold. It has also eroded household's financial savings and undermined the stability of the rupee. India's financial systems remains well capitalized and supervised, but slowing growth is highlighting corporate vulnerabilities and leading to deteriorating bank asset quality.

D. OUTLOOK

The World output is expected to accelerate to 3.4% in 2017, with across the board acceleration in GDP growth. The advanced economies as a set are expected to grow by 1.9% a30bps acceleration year on year. With broadly flat or softening commodity prices during the year 2016-17, some analysts have predicted the end of the commodity price super cycle, given the slowdown in emerging market economies. However, the motivation for forecasting commodity prices are thus as relevant as ever, and the issue becomes how best to do this. Most of the emerging market and developing economies are expected to perform better in 2017.

“Annexure B” to the Independent Auditor’s Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Spangle Marketing Limited (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and

evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.
